

# M860 MULCHER

## APPLICATION VERSATILITY.

The Weiler 825 mulcher comes installed from the factory and is optimized for the M860. Rugged structures, reinforced skids, and internal abrasion-resistant plating minimize downtime and repairs. All daily service points are at ground level.

## OPERATOR COMFORT.

A quiet and spacious cab with a powerful HVAC system and rear view camera keep operators comfortable and productive. The premium seat, wide leg room near the joystick mounts, and overall machine balance provide a superior ride.

## WORK ZONE VISIBILITY.

A clean three-piece front windshield and sleek hose routings allow the operator to see the work zone easily without having to strain or reposition the machine. This minimizes operator fatigue and leads to more productivity.

## SERVICEABILITY.

Ground level fuel fill, electric hydraulic oil fill pump, four-sided access to the engine and hydraulic pumps, as well as a tilting cab provide full access to the interior of the machine delivering excellent serviceability.

## PRESSURIZED COMPARTMENTS.

The machine is segmented into separate compartments that are pressurized to prevent debris from entering the machine. Perforated panels keep the machine components at cooler temperatures longer and along with heavy duty steel hinged belly pans reduce cleaning time.

## GREATER DURABILITY & RELIABILITY.

Rugged frames with integrated steering cylinder mounts and a center hitch field-proven for nearly 20 years are built for the harshest applications. The large cooling system keeps the engine and hydraulics cool, extending component life.
